Shadow banking system - Wikipedia
The shadow banking system is a term for the collection of non-bank financial intermediaries (NBFIs) that provide services similar to traditional commercial banks but outside normal banking regulations. Examples of NBFIs include insurance firms, pawn shops, cashier's check issuers, check cashing locations, payday lending, currency exchanges, and microloan organizations.

Pesticides play an important role in agricultural development. However, pesticide application can result in both acute and chronic human toxicities, and the adverse effects of pesticides on the environment and human health remain a serious problem. There is therefore a need to discuss the application methods for pesticides, the routes of pesticide exposure, and the health risks posed by ...
