BIOL 521 - Advanced Anatomy and Physiology (3) This course includes advanced studies of human anatomy and physiology of the cell and muscular, cardiovascular, pulmonary, neurological, renal, hepatic, and endocrine systems. Emphasis is placed on feedback mechanisms, homeostasis, assessment, and intervention.

BIOL 521 - Advanced Anatomy and Physiology (3) - Acalog ACMS™

Anatomy and Physiology is an event which tests students' knowledge about the anatomy and physiology of a human body. Division B and Division C will both typically concentrate on three systems, which change each year. Topics may include diseases in those systems as well as the general anatomy and function of each system from the cellular to the holistic scale.
