A code talker was a person employed by the military during wartime to use a little-known language as a means of secret communication. The term is now usually associated with United States service members during the world wars who used their knowledge of Native American languages as a basis to transmit coded messages. In particular, there were approximately 400 to 500 Native Americans in the ...

On the island of Guadalcanal in 1942, where the battle between the Americans and the Japanese is raging, Chester and code-talking partner Roy Begay are thrown into the thick of things. They use the Navajo code to pass messages between Marine troops. The code is a big success, and the Marines manage to take the island in early 1943.
