Frog Dissection Pre-Lab Questions Flashcards | Quizlet

Why dissect a frog? Frogs and humans are vertebrates with similar organ systems. Although all of the internal organs are not the same in frogs and humans, it is helpful to learn about anatomy through dissection. We will be looking at each body system, and exploring individual organs of the frog. We will make comparisons of the frogs' anatomy to our own. The frogs that we will use in our lab were bred in Mexico for the scientific purpose of learning anatomy.
