How Much Does it Cost to Fix a Blend Door Actuator? If you choose to have a professional replace your car's blend door actuator, you can usually expect to pay somewhere between \$200 and \$500 to get the job done. Of course, the exact cost will depend on various factors, such as the year, make, and model of your vehicle.

### Bad Blend Door Actuator: Symptoms, Location, & Replacement ...

Use a metal or wooden door sweep for a better look. This does not create the tightest seal, since it doesn't change shape to fill the gap, but is very durable and more attractive than other materials. It can even be painted to blend in with your door.

### How to Replace Weather Stripping at the Bottom of a Door

The single mode door actuator is located on the driver side end of the heater-A/C housing unit, close to the top of the distribution housing. The mode door actuator is mechanically connected to the mode door. The mode door actuator is interchangeable with the actuators for the blend air door(s) and the recirculation air door.

### HVAC Blend Door Actuator Location?: Where Is the Blend ...

Now take the gray end off the new blend door and put it in the place where you removed the white piece. Maneuver the new blend door in position up through the fan housing. Get the pivot point on the opposite side in and push the gray part from the outside into the end of the blend door (you might have to rotate the gray part as it is a keyed fit).
