Leyland Motors has a long history dating from 1896, when the Sumner and Spurrier families founded the Lancashire Steam Motor Company in the town of Leyland in North West England. Their first products included steam powered lawn mowers. The company's first vehicle was a 1.5-ton-capacity steam powered van. This was followed by a number of undertype steam wagons using a vertical fire-tube boiler.

Leyland Motors - Wikipedia

An important feature of the new Leyland buses was the engine; it was a six-cylinder overhead-camshaft petrol engine of 6.8 litres displacement, developing between 90-98 bhp at up to 2,200 rpm. Other drive-line features were a single-plate clutch driving into a four-speed sliding-mesh gearbox; these were

successor the Rover Group from 1986 to 1999. It was also marketed as the Sterling in the United States. Co-developed with Honda, it was a close relative to the Honda Legend and the successor to the Rover SD1.

Rover 800 series - Wikipedia

The result is an outstanding vintage tourer with stunning performance - during the engine rebuild the opportunity was taken to increase the capacity to around 4 1/2 litres (as it had been whilst racing at Brooklands) and the motor was built with all steel internal parts. The way this car drives is a real eye-opener to the joys of the 30/ 98.
