Process Innovation-Reengineering Work Through Information ...

A colleague gave me this book after a business training session in June 2000. Although the title was intriguing, the book did not live up to its promise. The true focus of the book is the question of Process Innovation. Information technology is treated as a tool to help the innovation process. There is only one chapter specifically devoted to IT.

Process Innovation: Reengineering Work Through Information ...

Business process re-engineering is a business management strategy, originally pioneered in the early 1990s, focusing on the analysis and design of workflows and business processes within an organization. BPR aimed to help organizations fundamentally rethink how they do their work in order to improve customer service, cut operational costs, and become world-class competitors. BPR seeks to help companies radically restructure their organizations by focusing on the ground-up design of their busines
